

We're
happy
to help
you
STOP
the
spread
of
meth.

Keeping an eye on the theft or improper purchase of cold and allergy tablets is an important step in keeping methamphetamine, meth, out of our community and away from our kids.

As of January 1, 2005, *Illinois law* requires retailers to store certain cold and allergy tablets used to make meth behind the counter or in a locked case. Sales are also limited to two packages per transaction.
